

5 REASONS TO JOIN

In Our Union, We Have the Power To Improve Public Education and Our Communities.

1

A SEAT AT THE TABLE

Every member has a voice in the decisions made in our union and in our collective bargaining. You are part of the collective voice in your local chapter when it comes to organizing and bargaining for better learning and working conditions, competitive salaries and benefits, smaller class sizes, support for new educators and more.

CHAMPION RIGHTS FOR PUBLIC SCHOOLS

Our victories trace back to over 150 years ago, all the way back to 1866, when we secured universal free public schools for all California students, including those that educated African American students. We've been fighting for all students and educators and championing equity and justice for all since our first union meeting. Members of CTA continue to make our schools and state more welcoming places for all students.
