The Department serves as a support base for local chapters, Service Center Councils, member leaders, staff, advocacy groups, students, and parents. Community Schools

Community schools bring educators, students, families, and community partners together to support the whole child through shared decision-making, strong academics, wraparound services, and equity-centered solutions that reflect each school community's unique needs.

Today, it's estimated that there are between 8,000 and 10,000 community schools nationwide, and this number continues to grow.
