

Fire season is here!

Have you registered your cell phone?

AlertSanDiego

Get signed up. Get notified.

AlertSanDiego is the regional mass notification system used to send emergency alerts to landline phones and registered cell phones, Voice over Internet Protocol (VoIP) phones and email addresses.

The system is designed to send telephone notifications to residents and businesses within San Diego County impacted by, or in danger of being impacted by, an emergency or disaster.

Listed and unlisted landline telephones are already registered with the system. For those without a landline phone, registering with AlertSanDiego will help ensure emergency notifications will be received.

Register today at ReadySanDiego.org

Check the Accessible AlertSanDiego box during registration to receive AlertSanDiego notifications in accessible formats.
