

State Council Representative/Alternates: Description of Duties

REPRESENTATIVES

State Council Representatives regularly attend all four meetings of the State Council of Education, participate actively in the work of committees to which they are assigned, become informed on professional and educational matters in the chapter(s) represented and prepare to make appropriate presentation of recommendations originating in the chapter(s). Newly elected representatives must attend the New Member Orientation Meeting, and will receive a notice to do so via the State Council meeting notice.

ALTERNATES

State Council Alternates attend meetings of the State Council of Education as called upon/needed to substitute absent Representatives or fill vacancies. When attending State Council, alternates participate actively in the work of committees to which they are assigned, become informed on professional and educational matters in the chapter(s) represented and prepare to make appropriate presentation of recommendations originating in the chapter(s).

Both Representatives and Alternates report regularly to their chapter(s) regarding the deliberations and actions of the State Council of Education and attend/participate in the meetings and activities of the Service Center Council of which their chapter is a part.
