## CTA/NEA Micro-Certifications

### What is a Micro-Certification?

Micro-certifications are short, competency-based courses that allow educators to demonstrate mastery in a particular area. Choose those that interest you and complete them when and how you choose! Want to know more? Register for an upcoming micro-certification information session:

[Register](#) | September 22, 2021, 4:00 p.m. to 5:30 p.m.  
[Register](#) | September 29, 2021, 4:00 p.m. to 5:30 p.m.

### Access the Micro-Certification Portal

Access the CTA/NEA Micro-certification portal and our featured stacks (curated collections of related micro-certifications). Create for an account, browse offered micro-certifications, enroll in the one that interests you and you're on your way!

[Enter the Portal](#)

[www.cta.org/cta-nea-micro-certifications](http://www.cta.org/cta-nea-micro-certifications)

## GETTING STARTED WITH MICRO-CERTIFICATIONS

- Understand CTA/NEA Micro-certification as job-embedded professional growth.
- Explore micro-certification offerings for the 2021-2022 school year.
- Consider enrolling in a micro-certification or joining/starting a community of practice.

### OPTION 1

[bit.ly/microcertinfo1](https://bit.ly/microcertinfo1)  
case sensitive  
September 22, 2021,  
4:00 p.m. to 5:30 p.m.

### OPTION 2

[bit.ly/microcertinfo2](https://bit.ly/microcertinfo2)  
case sensitive  
September 29, 2021,  
4:00 p.m. to 5:30 p.m.

[Flyers to share](#)

# Purposes

1. Consider micro-credentials as a practitioner-led, job-embedded professional learning option.
2. Become familiar with micro-certification content and requirements.
3. Consider different approaches for using micro-certifications in your local association.
4. Gather your input/insights into making micro-certifications more effective and valuable for members.

## **Intro Discussion**

# Discussion

Take a moment to think about professional learning that was meaningful and/or effective for you in your career.

What was it about the experience that made it so?

*Respond in chat or raise your hand to share verbally.*

# What made the experience meaningful?

# Overview

	Others Providers	CTA/NEA Microcerts

<b>Portability</b>	Rare	Full

## **Overview of Micro-Certifications**

# Basics

## What are micro-certifications?

Micro-certifications are a digital form of certification indicating demonstrated competency/mastery in a specific skill or set of skills.

# Terms

## Micro-credential versus micro-certification

- California grants teaching credentials.
- Others states grant teaching licenses or certificates.
- We use the term “micro-certificate” to distinguish short, competency-based recognitions from the legal documents that permit teaching in California.

“The proliferation of credentials should be opposed.”  
-CTA Policy

# Elements

## To achieve a micro-certification, educators...

1. identify a competency they want to develop,
2. submit evidence for review to the issuer of the micro-certification to illustrate that they have mastered the competency.
3. If successful, the issuer awards a digital badge that represents the achieved micro-credential.

*Great Public Schools for Every Student*

## IEP Implementation: Communication and Collaboration

Educator, as a member of the Individual Education Program (IEP) implementation team, uses communication and collaboration strategies to increase the supports for student attainment of established goals.

### Key Method

The educator, in order to successfully implement an IEP, creates and utilizes a communication and collaboration plan that includes all stakeholders, the sharing of instructional strategies, related services, and a feedback process.

### Method Components

To develop a wider range of communication and collaboration skills, the IEP implementation team needs to work together to identify mutual goals and use negotiation skills to address the needs of students with disabilities.

Members of this team should include:

- Parents/guardians
- The student (when appropriate)
- Specialized Instructional Support Personnel (SISP)
- General education staff
- Special education staff
- Administrators

### Co-Teaching

Co-teaching may be defined as the partnering of a general education teacher and a special education teacher or other specialists for the purpose of jointly delivering instruction to a diverse group of students, including those with disabilities or other special needs. Co-teachers need to share a common mission that includes the idea that all students should be held to high standards of learning while also ensuring that each child's unique instructional needs are met effectively. They must also align standards with the individualized goals and objectives of the IEP.

### Collaboration, Consultation, and Teamwork

When the IEP implementation team collaborates, the stigma of special education disappears and the student becomes OUR student. Not mine, not yours. Goals become more meaningful because there is no longer an "IEP" goal on top of general education demands. Education becomes a fluid and more effective process.

### Parent/Family Engagement

Parents are an invaluable source of information about their child's past experiences and skills in settings other than your

An educator will respond to your questions within 48 hours.

## IEP Implementation-Communication and Collaboration

### Part 1. Overview Questions

(250-500 words)

Please answer the following contextual questions to help our assessor understand your current situation. Please do not include any information that will make you identifiable to your reviewers.

- Describe your school site. Include student demographics, the total number of students, the percentage of the student population identified as having a disability, and the role of each member of the IEP team.
- What are the typical communication patterns between the adults (and students, when appropriate) on the IEP team?
- How many students are you serving overall, and how many of these are students with an IEP?
- Identify the current strengths in and barriers to communication and collaboration with the IEP implementation team in your work site and assess how these impact your day-to-day practice.

**Passing:** Responses should lead the assessor to have a clear understanding of the demographics of the student population, the current role and involvement of the educator and other IEP team members, and the current strengths in and barriers to communication and collaboration.

# Digital Badges

- An Open Badge is a specialized type of digital badge that contains verifiable metadata about achievements according to a common data format, the [Open Badges specification](#).
- Because they follow an open standard, recipients can combine badges from many different sources into common collections, and when they share them, these badges may be verified by any compatible system to ensure that they are trustworthy representations of their earner's experiences.
- Digital badges can be awarded in a variety of educational contexts across informal and formal learning, by educational institutions, individuals, and employers. These badges can aggregate and shed light on the interests, capabilities, and accomplishments of learners. Badges can serve as the stepping stones on a learning pathway.

## **Diving Deeper into a Micro-Certification**

# Digging Deeper

## Great Public Schools for Every Student

### Classroom-Embedded Performance Assessment

Educator creates and implements quality classroom-embedded performance assessments that allow students to apply skills and knowledge to a meaningful task, product, or performance for formative and summative use.

#### Key Method

The educator creates or revises a quality performance assessment, implements it in the classroom, and reflects on the process and results to inform further instruction.

#### Method Components

##### Creating or Revising a Quality Performance Assessment

###### Definitions

(see McTighe blog, Part 1 in Resources)

- A performance assessment asks students to demonstrate knowledge and skills by performing a task or producing a product.
- A classroom embedded assessment is a content-based integral part of the teaching and learning process as opposed to a stand-alone assessment unrelated to classroom content.

##### When and Why to Use a Performance Assessment

(see McTighe blog, Part 2 in Resources)

Performance assessments allow students to apply their learning to meaningful tasks. It is appropriate to use performance assessments when assessing skills, products, or reasoning learning targets that call for an artifact of some kind to demonstrate proficiency. Performance assessments allow educators to engage students and personalize their learning.

##### Common Performance Assessment Tasks, Products, and Performances

- Research paper
- Literary analysis
- Persuasive writing
- Lab report
- PowerPoint (or other slideshow) presentation
