

# Sacramento United for Community Schools

## OUR VISION FOR COMMUNITY SCHOOLS

Community Schools have transformative power when they are created and governed by educators, parents, and school staff sitting at the same table as administrators. Funding available for Community Schools should be invested at the direction of the communities our schools serve.

## FOUR PILLARS OF COMMUNITY SCHOOLS

In order to achieve these transformational outcomes, The California Community Schools Partnership Program (CCSPP) Framework leans heavily on the four established pillars of the community schools movement.

1. Integrated Student Supports
2. Family and community engagement
3. Collaborative leadership and practices for educators and administrators
4. Extended learning time and opportunities

*"Authentic shared decision making is a hallmark of the California community schools approach." -CCSPP Framework*

## WHO WE ARE

We are educators and parents dedicated to ensuring that historic funding is invested effectively for the successful implementation of Community Schools throughout Sacramento County.

## HISTORIC FUNDING

California has allocated \$4.1 billion dollars into Community Schools implementation. School Districts can apply for planning and implementation grants for varying amounts through the California Department of Education.

## NEXT STEPS

Educators and parents will continue conversations in our districts in the months to come to ensure the successful implementation of Community Schools. You can reach out to local educators' unions regarding next steps.
