HELP OUR CHILDREN THRIVE!
Prevents $4 billion in new education cuts: Protects public schools from returning to the days of massive budget cuts, educator layoffs, and larger class sizes. Governor Brown has said that we’ll face even more cuts if Prop. 55 doesn’t pass.

Does not raise taxes on anyone: Simply maintains the current income tax rate on the wealthiest Californians.

Mandatory audits and strict transparency requirements: Californians will know exactly how the money is spent with mandatory annual audits.

Money goes to local schools and the Legislature can’t touch it: Stringent requirements ensure funds designated for education go to classrooms, not to bureaucracy or administrative costs.

Helps address California’s looming teacher shortage: The state needs an estimated 22,000 additional teachers next year alone. Provides local school districts the money needed to hire teachers and prevent overcrowded classes.

Makes college more affordable: Prevents cuts to community colleges, avoiding tuition increases.

Expands health care access for low-income children: Helps kids come to school healthy and ready to learn.
