## ESTABLISH LOCAL CONTROL, FOR ALL PUBLIC SCHOOLS

- **Local Democracy:** Establishment of charter schools was intended to encourage locally driven innovation, and was never meant to sidestep democratically-elected leaders.
- **Do No Harm:** Authorizers must be able to consider economic, facilities and academic impact of new charter schools on students attending public schools in the area.
- **Local Accountability:** School district control over what charter schools will operate within its boundaries means efficient use of resources to meet needs of all students.
