NEED YOUR SUPPORT TO CLOSE A LOOPHOLE IN CHARTER SCHOOL LAW

- AB 1507 closes a loophole in current law which allows a charter school to operate outside of its authorizing district on an indefinite basis. Current law undermines the practice of local control, wherein districts develop priorities and plans with input from all stakeholders including parents, students, teachers, and community members.
- Once a charter school has set up operations in a neighboring district, it often stays. With no real authority to ensure adequate safeguards and productive learning environments, the conditions of teaching and learning has, in many cases, deteriorated rapidly.
- Local school districts must have authority to decide if a charter school operates in their school district, and should not make decisions about locating a charter school in another school district. AB 1507 is a commonsense solution that will help ensure charter schools are authorized and operated in their local districts.
